

Save Our Planet Before It's Too Late

The climate crisis is the defining challenge of our time. Join us in taking decisive action to protect our planet for future generations.

[Take Action Now](#)[Learn More](#)**1.5°C**

Global temperature rise we must not exceed

50%

Required emission reduction by 2030

2050

Target year for net-zero emissions

Key Climate Issues

Rising Sea Levels

Melting ice caps and thermal expansion threaten coastal communities worldwide.

Extreme Weather

Increasing frequency and intensity of natural disasters and weather events.

Biodiversity Loss

Ecosystems and species face extinction due to changing climate patterns.
